Helping medical students rank foundation jobs using a web app

Tamir Sirkis

The task

Final year medical students need to rank up to 1000 sets of two-year rotations

Location

Department

Order

No intuitive approach offered

The web app

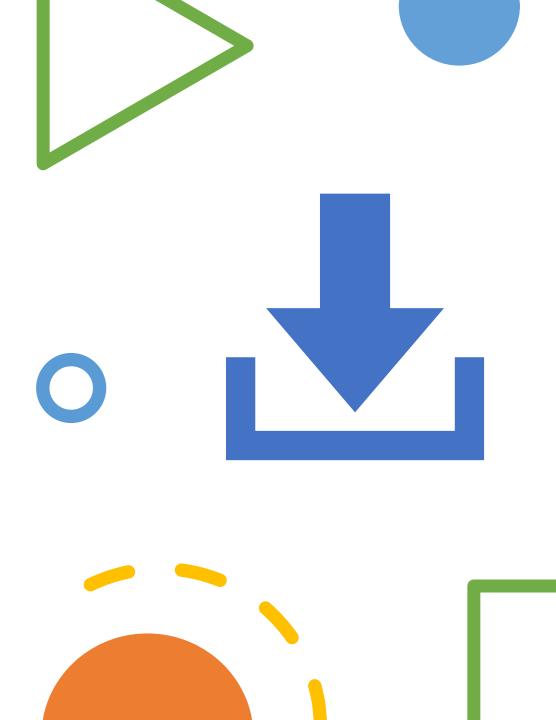

Written in python, uses streamlit interface

Simple process:

Upload your jobs excel

Create custom ranking "rules" indicating preferences

Download excel spreadsheet with jobs ranked

The web app (cont.)

- Rules are used to calculate scoring based on:
 - Hospital/Clinical block
 - Year specification
 - Positive/negative feeling and magnitude

The dissemination

- Medical school
- Social media
- MindTheBleep

The outcome

Over 750 unique viewers

"Thank you for creating such a useful foundation job ranker"

"I've been really impressed by your app"

"Just wanted to sincerely thank you for making the UK ranking link available to all of us. You don't understand how it helped me significantly, especially for us IMGs"

Reflection on project

- Explore interesting ideas even if they initially appear unfeasible
- Using technology to improve productivity
 - High administrative burden(1)
- Medicine NEEDS people with other skills
- Empower students and junior doctors to create change

1. Royal College of Physicians. Being a Junior Doctor: Experiences from the front line of the NHS. 2016 Dec; https://www.rcplondon.ac.uk/guidelines-policy/being-junior-doctor

Thank you for listening!

Any questions?
